

Software Engineering Project Grading Rubric
Dr. Shihong Huang

Measured Team Outcomes for Software Engineering *Process* (50 Points)

	10 Points	8 Points	6 Points	4 Points	2 Point
1. Team Participation (Each member's contribution)					
2. Producing non-software and software deliverables on time					
3. Quality and completeness of non-software deliverables (requirements, use cases, UI mockups, etc.)					
4. Ability to apply best software engineering process and teamwork practices (Scrum and Someone.io)					
5. Ability to effectively use software engineering tools (e.g., collaborative tools, version control, issue trackers)					

Measured Team Outcomes for Software Engineering *Product* (50 Points)

	10 Points	8 Points	6 Points	4 Point	2 Points
1. Correctness and reliability of operation					
2. Functionality of the product vs. desired requirements and use cases					
3. Ease of use, user interface					
4. Performance					
5. Presentation style and effectiveness of final product demonstration (content, delivery, adherence to time, dealing with Q/A)
