CEN 5035 Software Engineering
Fall 2016

Final Project Presentation Guide

Each team has about 20 minutes to present, including Q&A. So, you need to plan your presentation carefully within the time limit.

Your presentation includes three parts (you can add more if you see fit):

1. Project highlights (ppt)
   a. Product overview – Executive summary
   b. Requirements/Project proposal, main functionalities
   c. User stories, Use cases
   d. Product design (Balsamiq if you have one)
   e. BPMN model
   f. Trello activities
   g. Knowledge have gained in this class (new products, skills, lessons learnt etc.)
2. Product demo
   a. Changes made from last demo (slides)
   b. Product demo
   c. Short list of functionalities with status (slides)
   d. Suggested next steps (slides)
3. Questions/feedback
